About me

I'm a 3rd year student at SRM Institute of Science and Technology, pursuing B.TECH Degree in Computer Science and Engineering. I am passionate about leveraging technology to solve real-world problems. My expertise lies in Python, SQL, Machine Learning, Generative AI and Data Structures and Algorithms, with a keen interest in extracting meaningful insights from data to drive informed decision-making.

Education

Bachelor of Technology in Computer Science and engineering
(Current CGPA 8.08)

August 2023 - May 2027 (expected)
SRM Institute of Science and Technology, Ramapuram

Technical Proficiency:

- Languages: Python, Java
- Web: HTML, CSS
- Database: MySQL

Projects

• Ping Pong game

Developed a Ping Pong game using Java for and Python. The project features real-time gameplay, scoring, and player control mechanics. It highlights my skills in multi-language development, problem-solving, and creating engaging interactive applications Using PyGame and javaFX.

• Flexify Fitness Tracker And Workout Log Planner

A web-based fitness management application that allows users to plan, record, and monitor their workouts effectively. The goal is to create a lightweight, web-based fitness tracker that combines practicality with motivation, built on a robust technical foundation using modern web and database technologies. Built using ·React.js, Tailwind CSS·JavaScript / TypeScript·Vite / Next.js·Node.js·Express.js·Prisma ORM·PostgreSQL \pgAdmin / Prisma Studio.

Skills

- Python
- Java
- Mysql
- html,css
- Generative AI

Soft Skills

- Empathy
- Adaptability
- Leadership Experience
- Team Collaboration
- Problem Solving

Interests

Passionate about app development and web technologies, with a strong interest in creating intuitive user experiences. Enjoy exploring the latest in tech trends, open-source contributions, and automation tools.
